POLICY

SPRPMO P 451.1G

APPROVED: 3/25/20

SUBJECT: SPR ENVIRONMENTAL POLICY STATEMENT

1. **PURPOSE AND SCOPE.** This environmental policy applies to the facilities and pipelines that comprise the Strategic Petroleum Reserve (SPR). The mission of SPR is to store petroleum and maintain drawdown readiness. To achieve its mission, the Department of Energy (DOE) and SPR contractors will design, develop, construct, operate, and maintain SPR facilities and operations in a manner that shall be sustainable, resource-efficient, and will protect the quality of the environment consistent with all applicable environmental laws, regulations, and standards. Environmental protection will be integrated at all management levels and into all phases of activity.

This environmental policy is established, implemented, and maintained by SPR top management through an environmental management system (EMS) under an integrated safety management umbrella.

2. **POLICY STATEMENT.** *The SPR operates only in an environmentally responsible manner.*

Environmentally responsible manner means top management pledges that all functional levels will abide by the following:

- a. Comply with applicable Federal, State, and local environmental compliance obligations and regulatory requirements which relate to the environmental aspects of SPR activities;
- b. Prevent pollution by undertaking measures to prevent the generation of wastes and other residual materials requiring disposal or release to the environment through recycling, reuse, and source reduction. Where the generation of such wastes cannot be avoided, the SPR Project Management Office will take action to reduce their volume and toxicity and ensure proper disposal; and
- c. Improve environmental performance, continually, via the EMS and by establishing and maintaining documented environmental objectives and targets.
